HELP US TO KNOW YOUR CHILD

Please tell us a bit about your child so that we are better able to understand and meet his/her needs:

- Describe your child:
- What school has your child attended?
- Has your child's schooling been a positive experience for him/her?
- Does your child have any challenges in the classroom, e.g. concentration/working memory/motor planning/listening skills/speech/motor co-ordination/social or emotional challenges?
- Has your child had any assessments to identify areas of concern? If so, please forward a copy of the assessments to the school:
- Does your child currently receive therapy to address his/her challenges? If so, what therapies?
- Is your child on medication? If so, please indicate the reason and the medication:
- What are your expectations of your child's time at the Willows?
- Has there been proper closure at your child's current school? Are the fees up to date and notice period been honoured?
- Do you have any questions or concerns that you'd like us to address?
